Met from 10:14–12:14

- Talked about the app how it should be laid out
- Worked on making sure we get the app set up and figure out what we could add in later.
- They're wanting the map where customers can open the app and say hey, I am here right now.
 - o Send an automated message of hey stay put if its lightning please put the boat over you. Emergency services are heading your way.
