

Cheyenne Pierpont

Meeting 10/15/2024

Design Capstone

Professor Finkbine

Met briefly from 7:30 – 7:50pm

- Finish RF-3 Cheyenne, Brandon, Bailey
- Work on the layout of the app Brandon, Cheyenne
- Bailey working on the code then merging everything together on flask and Heroku.
- Contact Sherri about the information on the app.

Set next meetings for 10/23/2024

- Work throughout the week RF-3 almost completed

Information Needing to Discuss with Owner

- Reached out to owner for information needed on the app. Seeing If we need any more than just an emergency contact page, digital map, information and history on the app.
- Also Notifying her about this risk for later in the app and using it for further information Server Migration: Every 3-4 years when new hardware is procured, data migration would be handled through bulk data export/import using tools like mysqldump for MySQL and reconfiguring the Heroku deployment.
