

Cheyenne Pierpont

Bailey Forbes

Brandon Maurer

## Meeting Log for January 23<sup>rd</sup>, 2025

7:00 – 7:34

pm

Finished:

RS-6 Completed

Bailey: added in code for security and testing requirements for RS-6

The code is considered for automated testing. This is for integration and standardized testing. THIS IS A ROUGH EXAMPLE DO NOT USE THIS.

Brandon completed questions 1,3, part of 4, 5, 6, 8, 14, and 17 done.

Cheyenne: Business Background completed on RS-56 all of the tables completed as well.

Outside of RS-6:

Bailey: Employee dashboard committed to GitHub.

Cheyenne: worked on technical difficulties on database end on windows and Mac laptop.

To-Dos for overall:

Make prototype look prettier

Main security phase Frontend.

Push to Cloud.

Main testing phase.

Email bridge functionality to the employee system.
