Cheyenne Pierpont, Bailey Forbes, Brandon Maurer

Meeting on 09/24/2024

Design Capstone

Professor Finkbine

09/24/2024

Progression from week of 09/10/2024 – 09/24/2024.

 For Group River way

- Using this command we have established how to take our database into a file to bring it

  up on a new device.

  o mysqldump -u [username] -p [database_name] > [backup_file.sql]

  o coding in python

- We have established our database and have all confirmed it. It is published on our git

  repository.

- RF-1 Document we all took certain questions answered them met with one another and proofread several times. The document has been submitted 'this was last Thursday the 12th and discussion again and finalized the 19th.

- We also installed flask on our devices together last Thursday.

- Code has been written for the system including functionality of the website putting it together tonight for all three of us.

Notes over progression meeting: will be updated

- Concern: make sure understand all the aspects of the project to work on it throughout the entire project. For future use as well when the project needs to be worked on, we will be able to understand everything.
