Cheyenne Pierpont

Bailey Forbes

Brandon Maurer

Winter Break:

Bailey: Worked on the backend throughout winter break

- Database is up and running

    o Holds Accounts for customers and employees for the

      organization

    o Logs emergency situations as well if they occur.

- Added in a live chat

- Have am email for 2fa purposes to send a code to the

  paddler to verify they are who they say they are to access the

  information needed.

    o Email: cccemergencyresponse@gmail.com

Cheyenne:

- Worked on the front end of the project:

    o Added in our mission to the information tab on the

      prototype. As well as added more information to the

      about information on cave country canoes.

- Contacted the customer in December of the progress at the

  time mentioned to her we didn't have the database up and

  running.

- Contacted the customer again in January with new updates and developments. Also notified her the database is up and running and hold information.

Brandon:

- Worked on the front end of the project.

To do:

- Work on redoing the front end of the project
- Employee dashboard needs to be finished
- Make sure everything is up and running for demos
- employee full stack
- refine the front end of the entire system
- security aspects
- general testing
- pushing to the cloud.

Zoom Meeting: 5:30pm – 6:00
